

APPENDIX III  
AUTHOR AND TITLE INDEX

Aangeenbrug, Robert T. ( <i>Opening Remarks</i> ) . . . . .	1
Abler, Ronald ( <i>The Comparative Atlas of America's Twenty Largest Metropolitan Regions</i> ). . . . .	155
<i>An Advanced Mapping System for the Soil Conservation Service (C. Gene Johnson)</i> . . . . .	126
Amidon, Elliot ( <i>Land Unit Mapping with the Wildland Resource Information System</i> ). . . . .	367
<i>An Analysis of Approaches in Map Design</i> (John E. Dornbach) . . . . .	194
<i>Analytical Maps for School Locational Planning</i> (D.E. Anderson) . . . . .	457
Anderson, D.E. ( <i>Analytical Maps for School Locational Planning</i> ). . . . .	457
<i>Applications of Lattice Theory to Automated Coding and Decoding (Lawrence H. Cox)</i> . . . . .	519
<i>The Approach to Automated Cartography: Topographic Data Banks in Canada</i> (J.M. Zarzycki). . . . .	318
<i>Automated Cartography at the U.S. Bureau of the Census (Frederick R. Broome)</i> . . . . .	123
<i>Automated Cartography in the National Oceanic and Atmospheric Administration</i> (Donald H. Hunt) . . . . .	129
<i>Automation of Cartography at the Mexican Studies Commission for the National Territory</i> (Alberto Torfer Martell). . . . .	550
Bachi, Roberto ( <i>Graphical Methods for Presenting Statistical Data: Progress and Problems</i> ). . . . .	74
Barabba, Vincent P. ( <i>Welcoming Remarks</i> ). . . . .	7
( <i>A Challenge to Cartographers</i> ) . . . . .	15
Barb, Charles E., Jr. ( <i>The Congruence Between U.S. Census DIME Technology and Observed Local Operating Agency Geographic Interests and Needs</i> ) . . . . .	499
Batson, R.M. ( <i>Multi-Dimensional Maps Through Digital Image Processing</i> ). . . . .	386
Behrens, John O. ( <i>Tax Maps and Their Land Use Implications</i> ). . . . .	381
Bell, Sarah B.M. ( <i>Interactive Cartography at the ECU: Regional Geography a la Mode</i> ) . . . . .	303

Bickmore, D.P. ( <i>Interactive Cartography at the ECU: Regional Geography a la Mode</i> ). . . . .	303
Boyle, A.R. ( <i>Small Automated Cartographic Systems</i> ). . . . .	298
Brassel, Kurt ( <i>Neighborhood Computations for Large Sets of Data Points</i> ). . . . .	337
<i>Brazilian Cartography</i> (Jose Kleber Fialho) . . . . .	556
Broome, Frederick R. ( <i>Automated Cartography at the U.S. Bureau of the Census</i> ). . . . .	123
Byrne, Holly ( <i>The Selection of Color for the U.S.S.R Agricultural Atlas</i> ). . . . .	277
Carbaugh, Larry W. ( <i>Data Files for Computerized Cartography From the U.S. Census Bureau</i> ) . . . . .	335
<i>Census Statistical Mapping and the Users</i> (Robert C. Klove). . . . .	175
<i>The Challenge of Maps for the Visually Handicapped</i> (John C. Sherman). . . . .	91
<i>A Challenge to Cartographers</i> (Vincent P. Barabba) . . . . .	15
<i>Charge to the Conference</i> (William B. Overstreet). . . . .	3
Chrisman, Nicholas R. ( <i>Topological Information Systems for Geographic Representation</i> ). . . . .	346
<i>Cognition in Cartography</i> (Barbara Petchenik). . . . .	183
<i>The Comparative Atlas of America's Twenty Largest Metropolitan Regions</i> (Ronald Abler). . . . .	155
<i>Computer-Assisted Information Systems and Computer-Assisted Cartography: Tools or Tinker Toys of Urban Governance</i> (Barry S. Wellar) . . . . .	482
<i>Computer-Assisted Thematic Mapping with a Dedicated Mini-computer System</i> (Wolf D. Rase). . . . .	322
<i>Computer Graphics in Urban and Regional Planning: Some Development Projects in Scandanavia</i> (Krister Selander). . . . .	542
<i>Computer Mapping and Its Impact on Kansas City, Kansas and Wyandotte County</i> (Ronald E. Domsch and Kenneth D. Mai). . . . .	469
<i>Conflicting Goals in Choosing Colors for Quantitative Maps</i> (David J. Cuff) . . . . .	286
<i>The Congruence Between U.S. Census DIME Technology and Observed Local Operating Agency Geographic Interests and Needs</i> (Charles E. Barb, Jr.). . . . .	499

<i>Contemporary Statistical Maps: Evidence of Spatial and Graphic Ignorance</i> (George F. Jenks) . . . . .	51
<i>Contouring Algorithms</i> (John C. Davis) . . . . .	352
Corbett, James P. ( <i>Topological Principles in Cartography</i> ). . . . .	61
Cox, Carleton W. ( <i>Psychophysical Research and Map Reading Analysis</i> ). . . . .	233
Cox, Lawrence H. ( <i>Applications of Lattice Theory to Automated Coding and Decoding</i> ) . . . . .	519
Cuff, David J. ( <i>Conflicting Goals in Choosing Colors for Quantitative Maps</i> ) . . . . .	286
<i>Current Research in Tactual Cartography</i> (Charles E. Ogrosky) . . . . .	204
<i>Data Files for Computerized Cartography from the U.S. Census Bureau</i> (Larry W. Carbaugh) . . . . .	335
Davis, John C. ( <i>Contouring Algorithms</i> ) . . . . .	352
<i>Decision Day for Automating</i> (Warren E. Schmidt). . . . .	119
Dobson, M.W. ( <i>The Map--In the Mind's Eye</i> ). . . . .	225
Dornbach, John E. ( <i>An Analysis of Approaches in Map Design</i> ). . . . .	194
Domsch, Ronald E. ( <i>Computer Mapping and Its Impact on Kansas City, Kansas and Wyandotte County</i> ) . . . . .	469
<del>Digital Cartographic Data Base: Preliminary Description</del> (Dean Edson) . . . . .	523
Edson, Dean ( <i>Digital Cartographic Data Base: Preliminary Description</i> ). . .	523
Farnsworth, George L. ( <i>The ZIPSTAN Standardization System</i> ) . . . . .	496
Fialho, Jose Kleber ( <i>Brazilian Cartography</i> ). . . . .	556
<i>A Geographic and Cartographic Program for the 1980 Census</i> (Morton A. Meyer). . . . .	41
<i>Geological Information in a Computer Mapping System for Land Use Planning</i> (Nicholas Van Driel). . . . .	491
<i>Graphical Methods for Presenting Statistical Data: Progress and Problems</i> (Roberto Bachi). . . . .	74
Halasi-Kun, George J. ( <i>Land Oriented Water Resources Data System in New Jersey</i> ) . . . . .	388

Hugg, Lawrence ( <i>An Interactive GBF Creation and Computer Mapping System</i> ) . . . . .	448
Hunt, Donald H. ( <i>Automated Cartography in the National Oceanic and Atmospheric Administration</i> ) . . . . .	129
<i>In Pursuit of the Map User</i> (George F. McCleary, Jr.) . . . . .	238
<i>Interactive Cartography</i> (Harold Moellering) . . . . .	415
<i>Interactive Cartography at the ECU: Regional Geography, a la Mode</i> (S.B.M. Bell and D. Bickmore) . . . . .	303
<i>An Interactive GBF Creation and Computer Mapping System</i> (Lawrence Hugg and Lawrence Sniderman) . . . . .	448
<i>Introductory Remarks: Experiences in Federal Automated Cartography</i> (Bernard Schechter) . . . . .	116
Jenks, George F. ( <i>Contemporary Statistical Maps: Evidence of Spatial and Graphic Ignorance</i> ) . . . . .	51
( <i>Undergeneralization and Figure-Ground Relationships in Statistical Mapping</i> ) . . . . .	149
Johnson, C. Gene ( <i>An Advanced Mapping System for the Soil Conservation Service</i> ) . . . . .	126
Kaufman, Lloyd ( <i>The Uses of Color</i> ) . . . . .	270
Klove, Robert C. ( <i>Census Statistical Mapping and the Users</i> ) . . . . .	175
Kinzy, Stephen W. ( <i>ODIS vs. CUE: A Look at DIME File Maintenance</i> ) . . . . .	430
<i>Land Oriented Water Resources Data System in New Jersey</i> (George J. Halasi-Kun) . . . . .	388
<i>Land Unit Mapping with the Wildland Resource Information System</i> (Elliot Amidon) . . . . .	367
<i>The Land Use Map in British Local Planning</i> (D.R.F. Taylor) . . . . .	378
Mai, Kenneth D. ( <i>Computer Mapping and Its Impact on Kansas City, Kansas and Wyandotte County</i> ) . . . . .	469
<i>Map Design</i> (Arthur H. Robinson) . . . . .	9
<i>Map Editing Using a Topological Access System</i> (Marvin White) . . . . .	422
<i>Map Generalization: Theory, Practice and Economics</i> (Joel L. Morrison) . . . . .	99
<i>The Map--In the Mind's Eye</i> (M.W. Dobson) . . . . .	225

Martell, Alberto Torfer ( <i>Automation of Cartography at the Mexican Studies Commission for the National Territory</i> ) . . . . .	550
<i>Mathematical Map Models</i> (W.R. Tobler) . . . . .	66
McCleary, George F., Jr. ( <i>In Pursuit of the Map User</i> ) . . . . .	238
Meyer, Morton A. ( <i>A Geographic and Cartographic Program for the 1980 Census</i> ) . . . . .	41
Morrison, Joel L. ( <i>Map Generalization: Theory, Practice and Economics</i> ) . . . . .	99
Moellering, Harold ( <i>Interactive Cartography</i> ) . . . . .	415
Muller, Jean-Claude ( <i>Statistical Accuracy and Map Enhancement in Choroplethic Mapping</i> ) . . . . .	136
<i>Multi-Dimensional Maps Through Digital Image Processing</i> (R.M. Batson) . . . . .	386
<i>Neighborhood Computations for Large Sets of Data Points</i> (Kurt Brassel) . . . . .	337
<i>ODIS vs. CUE: A Look at DIME File Maintenance</i> (Stephen W. Kinzy) . . . . .	430
Ogrosky, Charles E. ( <i>Current Research in Tactual Cartography</i> ) . . . . .	204
Olson, Judy M. ( <i>The Organization of Color on Two-Variable Maps</i> ) . . . . .	289
<i>Opening Remarks</i> (Robert T. Aangeenbrug) . . . . .	1
<i>The Optimal Thematic Map Reading Procedure: Some Clues Provided by Eye Movement Recordings</i> (Theodore R. Steinke) . . . . .	214
<i>The Organization of Color on Two-Variable Maps</i> (Judy M. Olson) . . . . .	289
Overstreet, William B. ( <i>Charge to the Conference</i> ) . . . . .	3
Petchenik, Barbara ( <i>Cognition in Cartography</i> ) . . . . .	183
Peucker, Thomas K. ( <i>A Theory of the Cartographic Line</i> ) . . . . .	508
<i>Psychophysical Research and Map Reading Analysis</i> (Carleton W. Cox) . . . . .	233
Rase, Wolf D. ( <i>Computer-Assisted Thematic Mapping with a Dedicated Minicomputer System</i> ) . . . . .	322
Robinson, Arthur H. ( <i>Map Design</i> ) . . . . .	9

Schechter, Bernard ( <i>Introductory Remarks: Experiences in Federal Automated Cartography</i> ) . . . . .	116
Schmidt, Warren E. ( <i>Decision Day for Automating</i> ) . . . . .	119
Schweitzer, Richard H. Jr. ( <i>The Urban Atlas Project: Historical and Cartographic Review</i> ) . . . . .	162
Selander, Krister ( <i>Computer Graphics in Urban and Regional Planning: Some Development Projects in Scandanavia</i> ) . . . . .	542
<i>The Selection of Color for the U.S.S.R. Agricultural Atlas</i> (Holly Byrne and Ronald Summars). . . . .	277
Sherman, John C. ( <i>The Challenge of Maps for the Visually Handicapped</i> ) . . . . .	91
<i>Small Automated Cartographic Systems</i> (A.R. Boyle). . . . .	298
Sniderman, Lawrence ( <i>An Interactive GBF Creation and Computer Mapping System</i> ). . . . .	448
<i>Statistical Accuracy and Map Enhancement in Choroplethic Mapping</i> (Jean-Claude Muller) . . . . .	136
Steinke, Theodore R. ( <i>The Optimal Thematic Map Reading Procedure: Some Clues Provided by Eye Movement Recordings</i> ). . . . .	214
Summars, Ronald ( <i>The Selection of Color for the U.S.S.R. Agricultural Atlas</i> ) . . . . .	277
<i>Tax Maps and Their Land Use Implications</i> (John O. Behrens) . . . . .	381
Taylor, D.R.F. ( <i>The Land Use Map in British Local Planning</i> ). . . . .	378
<i>A Theory of the Cartographic Line</i> (Thomas K. Peucker). . . . .	508
Tobler, W.R. ( <i>Mathematical Map Models</i> ) . . . . .	66
<i>Topological Information Systems for Geographic Representation</i> (Nicholas Chrisman). . . . .	346
<i>Topological Principles in Cartography</i> (James P. Corbett) . . . . .	61
<i>Undergeneralization and Figure-Ground Relationships in Statistical Mapping</i> (George F. Jenks). . . . .	149
<i>The Urban Atlas Project: Historical and Cartographic Review</i> (Richard H. Schweitzer Jr.) . . . . .	162
<i>The Uses of Color</i> (Lloyd Kaufman). . . . .	270

Van Driel, Nicholas ( <i>Geological Information in a Computer Mapping System for Land Use Planning</i> ) . . . . .	491
Welcoming Remarks (Vincent P. Barabba) . . . . .	7
Wellar, Barry S. ( <i>Computer-Assisted Information Systems and Computer-Assisted Cartography: Tools or Tinker Toys of Urban Governance</i> ) . . . . .	482
White, Marvin ( <i>Map Editing Using a Topological Access System</i> ) . . . . .	422
Zarzycki, J.M. ( <i>The Approach to Automated Cartography: Topographic Data Banks in Canada</i> ) . . . . .	318
The ZIPSTAN Standardization System (George L. Farnsworth) . . . . .	496
